

## HIGH LEVERAGE DIAGONAL CUTTING NIPPERS

700N-175,200

Useable on a wide variety of items from piano wires and other hard wires, to VA cables.

		Cutting Performance							
Model	Length	Weight	Capacity	Capacity	Capacity	Capacity	Capacity	Capacity	Capacity
700N-175	175	270	8.0	8.0	8.0	8.0	8.0	8.0	8.0
700N-200	200	330	8.0	8.0	8.0	8.0	8.0	8.0	8.0

## HIGH POWER NIPPERS

700-175,200

Clamping function

		Cutting Performance							
Model	Length	Weight	Capacity	Capacity	Capacity	Capacity	Capacity	Capacity	Capacity
700-175	175	250	8.0	8.0	8.0	8.0	8.0	8.0	8.0
700-200	200	300	8.0	8.0	8.0	8.0	8.0	8.0	8.0

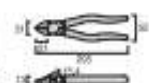

## DIAGONAL CUTTING NIPPERS

7-200

		Cutting Performance							
Model	Length	Weight	Capacity	Capacity	Capacity	Capacity	Capacity	Capacity	Capacity
7-200	200	200	8.0	8.0	8.0	8.0	8.0	8.0	8.0

\*) The actual capacity of JAMi products is affected by the material and the diameter of the wire to be cut. The actual capacity is affected by the material and the diameter of the wire to be cut.

## DIAGONAL CUTTING NIPPERS

70-125,150,175

		Cutting Performance							
Model	Length	Weight	Capacity	Capacity	Capacity	Capacity	Capacity	Capacity	Capacity
70-125	125	80	8.0	8.0	8.0	8.0	8.0	8.0	8.0
70-150	150	100	8.0	8.0	8.0	8.0	8.0	8.0	8.0
70-175	175	120	8.0	8.0	8.0	8.0	8.0	8.0	8.0

## DIAGONAL CUTTING NIPPERS

GKN-150,175,200

A large, sturdy body.

		Cutting Performance							
Model	Length	Weight	Capacity	Capacity	Capacity	Capacity	Capacity	Capacity	Capacity
GKN-150	150	300	8.0	8.0	8.0	8.0	8.0	8.0	8.0
GKN-175	175	340	8.0	8.0	8.0	8.0	8.0	8.0	8.0
GKN-200	200	380	8.0	8.0	8.0	8.0	8.0	8.0	8.0

## ELECTRICAL WORK DIAGONAL CUTTING NIPPERS

70Z-175

Non-slip grip design  
The grip is made of high-strength plastic, which is non-slip and comfortable to hold. It is suitable for long-term work.

		Cutting Performance							
Model	Length	Weight	Capacity	Capacity	Capacity	Capacity	Capacity	Capacity	Capacity
70Z-175	175	250	8.0	8.0	8.0	8.0	8.0	8.0	8.0

## HEAVY DUTY DIAGONAL CUTTING NIPPERS with CARBIDE BLADE

470-150,175

Compared to regular nippers, the blades are much stronger.

The blades are made of high-strength carbide, which is much stronger than regular blades. It is suitable for cutting through hard materials.

		Cutting Performance							
Model	Length	Weight	Capacity	Capacity	Capacity	Capacity	Capacity	Capacity	Capacity
470-150	150	300	8.0	8.0	8.0	8.0	8.0	8.0	8.0
470-175	175	340	8.0	8.0	8.0	8.0	8.0	8.0	8.0

\*) The actual capacity of JAMi products is affected by the material and the diameter of the wire to be cut. The actual capacity is affected by the material and the diameter of the wire to be cut.
