

3M™ SecureFit™ Hard Hat H-700 Series

**It's what's inside  
that counts.**

### **3M™ SecureFit™ Hard Hat H-700 Series**

The 3M™ SecureFit™ H-Series Hard Hats provides 3M innovation in comfort while maintaining the traditional cap and full brim design that many prefer. If you wear a hard hat for a full shift, you want it to be comfortable and fit properly.

3M recognizes this and has responded by designing a suspension system that self-adjusts to the wearer as the ratchet is tightened. Chosen 9 times out of 10 over current conventional hard hats\*, this suspension system flexes and self-adjusts to the size of the wearer's head, reducing forehead pressure and increasing comfort for all-day wear.

\*End-user survey conducted by 3M, November 2020 – March 2021. Participants were allowed to keep the new 3M hard hat.

Pharmaceutical

## Customize with Reflective Technology

### Our Technology

3M™ Scotchlite™ Reflective Material works by returning light rays back to the original source, a result of the retroreflective properties of thousands of microscopic glass beads incorporated into the material.

### Why Choose 3M™ Scotchlite™ Reflective Material?

- Enhanced visibility under low light conditions
- Highly Reflective
- Durable and easy to inspect for continuing performance
- Reflects when wet

When you apply Scotchlite reflective material to your workers' 3M Hard Hats, you're ensuring high visibility performance in low light to help workers be seen so they can function at their best.

## Available in different configurations

### Vented with 3M™ UVicator™ Sensor

Hard hats with sensor that shows when it's time to replace hard hat due to UV exposure.

Vents built into the hard hat help release heat buildup and allow air circulation to enhance the comfort of the worker.

### Non vented with 3M™ UVicator™ Sensor

Hard hats with sensor that shows when it's time to replace hard hat due to UV exposure.

Non-vented hard hats meet ANSI/ISEA Z89.1 Type 1, Class G and E requirements, CSA Z94.1

## 3M™ SecureFit™ H-700 Cap Style Hard Hats

Comfortable head protection plays an essential role in promoting the safety of your crew. Help give your workers an excellent blend of comfort, style, and safety with 3M™ Hard Hats.

The tough, durable shell and adjustable suspension system work together to help absorb the impact of small falling objects and help protect workers from bumping into fixed objects. Suspension system incorporates exclusive patented SecureFit™ Pressure Diffusion Technology. The UVicator™ sensor lets wearer know when to replace hard hat due to UV exposure.

Help give your workers an excellent blend of comfort, style and safety with 3M™ SecureFit™ Hard Hat Series. Available in cap style or full brim models, the suspension system incorporates patented Pressure Diffusion Technology and sits low on the head for greater comfort and security. Select models feature a proprietary indicator that lets wearer know when to replace helmet due to UV exposure. All models meet ANSI Z89.1 Safety Compliance Standards.

Typical properties	
Details	
Case Quantity	20
Electrical Class	C, E, G
Features	Pressure Diffusion Technology, UV Indicator
Hard Hat Type	Type I
Product Color	Black, Blue, Gray, Green, High-visibility Orange, High-visibility Yellow, Navy, Orange, Pink, Red, Tan, White, Yellow
Product Type	Cap Style Hard Hat

Shell Material	HDPE
Specifications Met	ANSI Z89.1, CSA Z94.1
Suspension Type	4 Point Ratchet
Vented	No, Yes
eClass 14 Classification Group	40300202
